"I'll be there" – THE MOVIE SCRIPT

THE SETUP

- Find a plain background (preferably white). Fx a wall or a sheet on the wall
- Wear your best everyday-outfit (NO stripes)
- Wear your hair away from your face (it's okay to have it loose and not in a hairdo, as long as both your eyes are visible at all times)
- Film with a camera. Preferably a SLR camera or computer for a better/still picture (phone can work if you don't have any of the other options). If using your phone put it on a shelf etc. instead of holding it. Make sure you film it horizontally
- Prepare a **blue** piece of paper with a word (1-3 tops) of your choosing regarding the things you feel during the times of Covid-19. Fx. LOVE, HOPE, FREINDSHIP, LONELINESS etc. Write in BIG AND BOLD letters!

HOW TO DO IT

- Film during natural daylight (not too late in the evening)
- Film yourself using fx. QuickTime Player or PhotoBooth (on macbook). Otherwise use another filming tool from your computer. For a windows computer you can download Movie Maker for free.
- Don't worry about mirroring your screen all directions have been adjusted to that.
- Start recording a little bit before you start the song. We'll adjust and cut it correctly during editing.
- Play the sound file for "I'll be there" (it's on DropBox) and sing along during the video (don't worry about hitting the notes. We'll mute you anyway and add the sound files instead). The important thing here is to **SMILE** and **PERFOM THE SONG** correctly so your lips match the sound.
- On YOUR OWN QUE (the words: "...there) <u>receive</u> the blue piece of paper from the correct direction. Now it shows your own word. Reveal it to the camera. Make sure you fill the camera frame with your paper. Show it for a little bit, then put it away till you pass it on.
- On YOUR SECOND QUE (the words: "I'll be...") give the paper in the correct direction to the next singer.
- On the outro (bar 91, on the first "oo, oo, oo") wave/make a piece sign/make a heart sign to the camera.
- At bar 92 (the second "oo, oo, oo") hold up a new blue piece of paper with the word given to you on page 4.
- Show the sign for a few seconds (3-5) before you stop the recording. We'll cut it in editing.

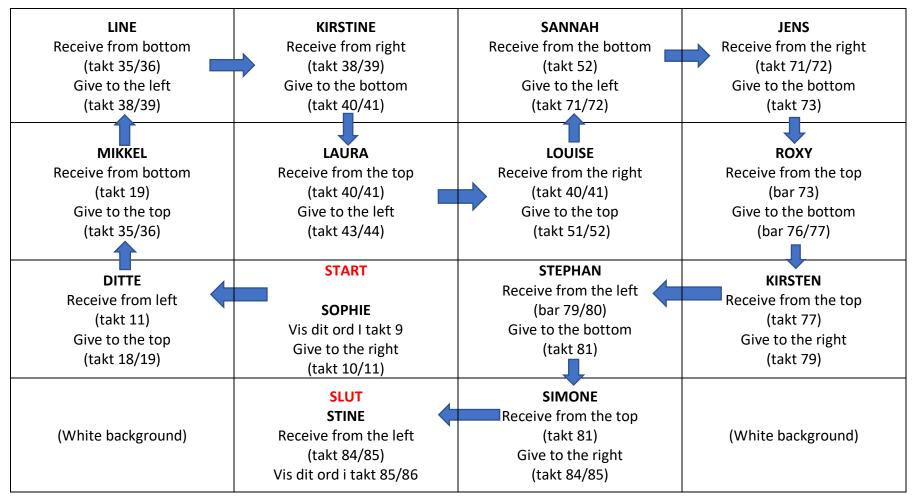

! GREAT TIPS TO MAKE IT WORK!

- Try a few times to make sure it's at your best 🙂
- Don't worry about mirroring your screen all directions have been adjusted to that.
- Start recording a little bit before you start the song. We'll adjust and cut it correctly during editing.
- Film with the lighting coming directly on your face (to make sure half of your face isn't in the shadow)
- You <u>always GIVE</u> a sign on "I'll be...". You <u>always RECEIVE</u> a sign on "...there".
- Have a person give you the paper when you receive it to make it look more natural. Or grab it from a shelf/window shelf.
- Show your personality we want to feel who you are.
- But don't "be personal on stage" be a performer. Don't chew gum, scratch your head, flip your hair behind your ears, look for bogeys etc.!
- HAVE FUN WITH IT!

"I'll be there" – Beat that Blue, video layout

GIVE a sign on "I'll be..."

RECEIVE a sign on "...there"

Outro, "Oo, oo, oo" (bar 92)

Show the signs on the second "oo, oo, oo"
